SUMMARY

Fresh MCA graduate (2025) specializing in data analysis and business intelligence with hands-on experience in SQL (Microsoft SQL Server), Microsoft Power BI, and Microsoft Excel. Built end-to-end analytics solutions spanning data warehousing, ETL pipelines, data visualization, and interactive dashboards using real-world datasets. Expanding into Python (Pandas, NumPy, Matplotlib) for data cleaning and exploratory data analysis (EDA). Seeking a Data Analyst, Business Intelligence Analyst, or Reporting Analyst role.

SKILLS

- SQL (Microsoft SQL Server):** Joins, CTEs, Window Functions, Aggregations, Query Optimization, Data Validation, Stored Procedures
- Microsoft Power BI:** Dashboard Development, DAX, Data Modeling, Power Query (M), Drill-through, KPI Visuals, Bookmarks, Slicers, Geospatial Charts
- Microsoft Excel:** Pivot Tables, VLOOKUP, XLOOKUP, Power Query, Advanced Charts, KPI Reports, Data Analysis
- Python:** Pandas, NumPy (learning), Matplotlib (in progress)
- Data Concepts:** ETL Workflows, Data Warehousing, Star Schema Modeling, EDA, KPI Tracking, Trend Analysis, Data Cleaning, Business Reporting
- Tools:** MS SQL Server Management Studio (SSMS), Git, Power Query

PROJECTS

Sales Data Warehouse — End-to-End Implementation

Jan 2026 – Feb 2026

Microsoft SQL Server | SQL | ETL | Star Schema | Data Modeling | [Project Link](#)

- Designed a sales data warehouse from scratch using star schema architecture with fact and dimension tables to enable scalable analytical querying and business reporting.
- Built ETL pipelines to extract, clean, and transform raw transactional data into structured, analysis-ready datasets with data validation and transformation rules.
- Wrote advanced SQL using CTEs, window functions, joins, and aggregations to generate KPI reports, business metrics, and trend analysis for stakeholders.

Sales Performance Analytics Dashboard

Feb 2026 – Mar 2026

Microsoft Power BI | DAX | Power Query | Microsoft SQL Server | [Project Link](#)

- Built a multi-page Power BI dashboard connected to the SQL Server warehouse, analyzing revenue trends, customer behavior, product performance, and profitability.
- Developed DAX measures including YTD revenue, MoM growth, rolling averages, and revenue per customer for executive-level KPI tracking and performance reporting.
- Designed interactive drill-through reports, slicers, and filters enabling granular product and customer-level data analysis and business insights.

Data Science Job Market Dashboard (2024)

Oct 2025 – Nov 2025

Microsoft Power BI | DAX | Geospatial Analysis | Data Visualization | [Project Link](#)

- Analyzed a real-world dataset of 2024 data science job postings to surface market trends, salary distributions (Median Yearly Salary KPI), and global job demand.
- Applied geospatial map charts to visualize worldwide job distribution and designed intuitive navigation via bookmarks, buttons, slicers, and drill-through pages.
- Used implicit DAX measures and KPI cards to highlight key metrics; designed an intuitive layout exploring both common and advanced chart types for effective data storytelling.

EDUCATION

Master of Computer Applications (MCA)

Aug 2023 – Jun 2025

Sardar Patel University, Mandi | CGPA: 7.51 / 10 | Coursework: Database Management Systems, Data Structures & Algorithms

Bachelor of Computer Applications (BCA)

Jun 2020 – May 2023

Himachal Pradesh University, Shimla | CGPA: 7.55 / 10 | Coursework: Database Systems, Programming Fundamentals

CERTIFICATIONS

SQL (Intermediate) — HackerRank

Mar 2026

Verified skill test: joins, CTEs, window functions, aggregations | Credential ID: 2EC670CC2471

Data Visualisation: Empowering Business with Effective Insights — Tata / Forage

Mar 2026

Simulation: framing business scenarios, selecting visuals, creating dashboards, communicating insights to stakeholders.

ADDITIONAL INFORMATION

Languages: Hindi (Native), English (Professional) **Interests:** Chess (strategic thinking), Guitar
